

# What is Divvy?

Divvy is the first complete spend management platform. With Divvy, companies can eliminate the need for expense reports, gain real-time visibility of their company spending, add security against fraud and wasteful spending, and so much more.

*Expense management made delightful.*

# Divvy features.

## Expense reports

We take care of the expense reporting automatically when you spend. That way you never have to worry.

## Smarter budgets

Budget the way your company spends. Manage and assign budgets to groups or individuals and track spend in real-time.

## Virtual cards

Generate a unique 16-digit card number anytime you need one. Use it for one-time purchases or for your subscriptions.

## Send & request

Get money out to your team in seconds with send and request. It's like Venmo for your business.

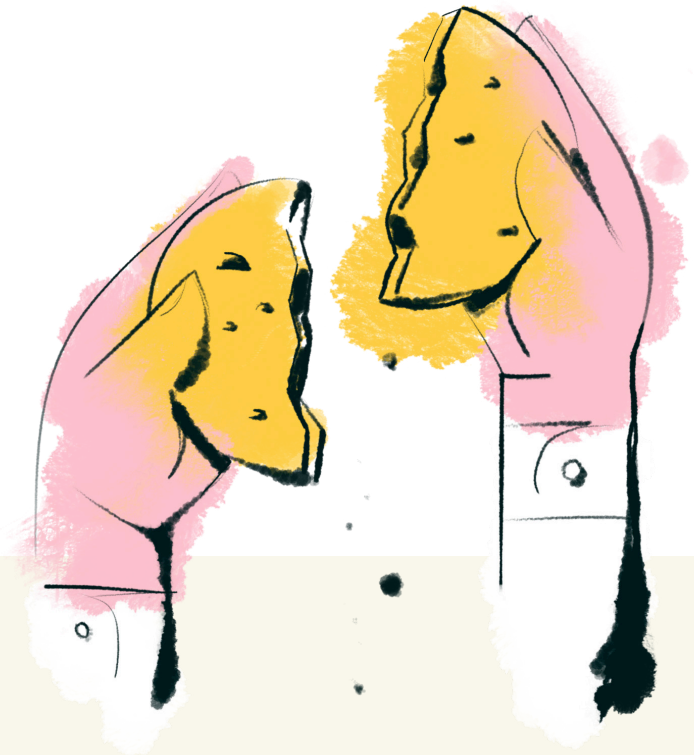

## Subscription manager

Use virtual cards to see and manage your subscriptions all in one place. Freeze or delete a card anytime.

## Travel deals

Get access to great travel deals on Divvy. We beat the big name booking sites by up to 50%.

*And we should mention, it's free. We don't charge anything for it.*
